SymSoil® Inc. Suisun Valley Promotes Nic Albert to General Manager *Fastest Growing Agri-restoration Co Expanding Excellence & Commitment*

SANTA ROSA, CA – December 18, 2019 –A Craigslist salesperson ad brought Nic Albert to SymSoil last

February. Recently, SymSoil CEO Elizabeth Pearce announced his promotion to General Manager of the company's home production hub in Suisun Valley, CA. "Nic's combined history of environmental studies and career achievements couldn't be a better fit to oversee the expansion of our unique science based products," Ms. Pearce said.

A native Northern Californian, Mr. Albert has a degree in Environmental Science from Cal State, Hayward and a Certificate in Permaculture Design. His career focus has been in Environmental consulting and various aspects of general construction. A personal desire to refocus on sustainable agriculture drove Mr. Albert most recently to achieve, "With Distinction" certificates completing rigorous courses at the Environment Celebration Institute. Based on the renowned Dr. Elaine Ingham's Soil Food Web science, Mr. Albert's hundreds of hours of study in, "Life in the Soil", "Compost Tea & Extract Class", "Compost", and "Microscope" classes signifies his excellence and commitment to SymSoil's mission and success.

"The earth had it figured out a long time ago and we want to mimic Mother Nature. SymSoil Living Soil improves produce yield and quality, restores the ground, and is profitable for farmers and cost saving to consumers. With customer testimonials, what better credibility is there?" Mr. Albert said.

"This Soil Food Web-type soil amendment has never before been produced on a commercial basis. We continue to refine our highly innovative process. The staff's passion and the super varied backgrounds offer a large perspective and different approaches to problem solving. It is really helpful. I believe in and stand behind SymSoil. Everyone that doesn't know it yet, eventually will too," he concluded.
