FOR IMMEDIATE RELEASE
January 22, 2020

Company Leadership Spreading SymSoil® Inc.
Fastest Growing Ag-Tech Company Cross Country at Industry Events

SANTA ROSA, CA – January 22, 2020 – SymSoil, Inc. today announced that its senior staff is featured and participating in upcoming regenerative agriculture industry conferences. The exceptional depth, unique knowledge and talents along with active passion of its professionals keeps SymSoil in the vanguard of the ever expanding conservation and rehabilitation approach to food and farming systems.

In Northern California, attending The Ecological Farming Association 40th annual EcoFarm Conference January 22 - 25, 2020 in Pacific Grove, CA are SymSoil's CEO Elizabeth Pearce, General Manager Nic Albert, and Soil Maven Stacy Reuhl, with ecologically-minded farmers, ranchers, and all who work to support their success in growing a healthy food system. EcoFarm is the oldest and largest organic farming conference in the West. Its farmer-to-farmer networking and education hub is critical in bilateral ways for SymSoil expanding its beneficial results footprint. #Ecofarm2020.

In Charleston, SC, January 28 – 31, joining luminaries of compost manufacturing, Peter Hirst, SymSoil's Director of New and Co-Product Development, is an instructor at The US Composting Council 28th Annual Conference. His consortium is an in-depth workshop on the scientific and practical analysis of specialized compost, highlighting the SymSoil's Fungal Infused Biochar. <https://bit.ly/38dBQJO>

SymSoil's President of Science Katherine Hinson, and Rion Naus, Microbe Herder, are networking January 31 – February 2, with intensive conversations on the Soil Food Web, soil structure, soil chemistry, Korean Natural Farming, microbial life and Indigenous Micro Organisms, in Garberville, CA, with other expert cannabis scientists and producers at the Regenerative Cannabis Cultivation Conference.

SymSoil, bringing soil to life, harnesses the best of nature for cost effective, high performance technology and results. Rightfully, its circle of influence is gaining ground as Subject Matter Experts among classic corporate entities, regenerative ag communities, pioneers and next gen stakeholders.

About SymSoil® Inc.

A California "B (Benefit)-Corporation" SymSoil is a leader in development of biological soil amendments for agriculture that restores the microbes that provide the right food to the plant roots, improving plant health, and making food more nutrient dense and flavorful, the way nature intended. SymSoil has products and services for growers using regenerative agriculture methodologies which improve profitability. Its flagship product, SymSoil® RC (Robust Compost) is a complex community of soil microbes, which includes in excess of 1,000 species, covering broad biodiversity of bacteria, fungi, amoebae, and other protozoa, beneficial nematodes and microarthropods. SymSoil was named one of 2019's AgTech Companies to Watch. For more information contact: Jill Shestokas, at 312-804-3304. Or www.SymSoil.com.
